

Hypochlorous Solution: Your first line of defense against bacteria, viruses, spores and fungi

Dr. Jeff Williams PhD, BVSc, MRCVS, is Briotech Chief Science Officer and in this lecture he shares how Hypochlorous Solution supports oral health as well as many other medical needs. Topics covered in this lecture include:

- What is HOCl? How the human body naturally produces it to combat infection and promote recovery and healing.
- Why it is the natural first line of defense against bacteria, viruses, fungi, and spores in almost all animal species.
- How HOCl starts with eliminating infection and then promotes repair, healing and restoration.
- HOCl as a reliable health product - stable, pure, potent and matches in vivo effects.
- Oral health and the high prevalence problem in the aging population and newly recognized key indicator of systemic health.
- Routine oral use of HOCl gives proven benefits. Simple routine applications for gingivitis, periodontitis, halitosis and canker sores.
- And more
